

I am honored to be a candidate for the office of NASIG Vice-President/President Elect. I attended my first NASIG conference in 2002 and I can still name vendors, librarians, and publishers I interacted with then. I was taken in by the welcoming nature of the conference and the passion and professionalism of the attendees. Since then, I have had highly rewarding experiences in NASIG program and conference planning, have taken advantage of continuing education offerings, and served as an editor of the conference proceedings.

Over the years, my professional responsibilities have moved from serials cataloging to e-resource management, collection development, digital collections, discovery, and project management. I have built units that embrace collaboration and support innovative approaches to problem solving. I have fostered a supportive and inclusive working environment that allows for individuals to reach their potential. Along the way, the NASIG community provided me with opportunities for professional growth, mentors, and friendships that have helped me address a wide range of work-related challenges. In the constantly evolving library and information environment in which we work, it is critical that NASIG continues to offer the high-quality programming and continuing educational opportunities that make a difference to its membership and the profession.

If elected to the position of Vice-President/President Elect, I will do my utmost to ensure that NASIG continues to be a vibrant organization that provides timely and useful opportunities for its members, engages with like-minded professional organizations, and holds a conference that features strong programming. Through these efforts NASIG can better position members to take advantage of new management techniques, adopt new technologies, impact the development of open resources, and understand industry trends. Having served in a variety of capacities in NASIG and other professional organizations over the years, I feel that I am well prepared to work with NASIG's diverse constituents and to help the organization evolve in ways that will allow it to thrive going forward. I would be honored to join with NASIG membership in embracing the future.

Sincerely,

Paul Moeller  
Digitization, Description, and Discovery Services Team Lead  
University of Colorado Boulder

Vitae of: Paul Moeller  
Academic Rank: Associate Professor

As of: December, 2022  
Since: July, 2010

## I. EDUCATION

MA, University of Iowa Graduate School, Iowa City, IA (2000) History

MA, University of Iowa Graduate School, Iowa City, IA (1992) Library and Information  
Science

BA, University of Iowa, Iowa City, IA (1981) History and Program in Asian Studies

## II. EMPLOYMENT
